

Branding Products Create a demand

...like wine, branding of meat creates a consumer demand, built from reputation, that brings your customers back.

Growers brand their products because they are produced with pride and integrity - they do not want to be just a commodity. Aligning yourself with these brands sends out the same message. View these brands of 'meat with care'!

Consistency

Our customer base and your customer base is built on consistency of the end product. It may be just a schnitzel to you but to us it is the best schnitzel, or the best burger, the best steak that we can produce.

Your customer knows the quality they are going to get each time.....keeping your customers coming back and spreading the word.

[...at mybutcher **innovation** commences with our customers needs - those needs creating **new, innovative** products to grow **your business**]

Prep Chef Menu Designs

We manufacture kebabs, burgers, schnitzels, a large variety of sausages, meatballs and finger foods, fresh, daily, saving your kitchen prep time.

Portion Cutting can be done for you, saving on wastage and accurate plate costings. We can source products for you that are not readily available in the market place, saving you time and money.

Easy Ordering

Ordering is easy and efficient at mybutcher. We have a dedicated orders line, personalised order form so orders can be placed six days a week up to 10pm for next day delivery (country areas may vary).
